Town of Wellfleet Open Space and Recreation Plan Public Survey

The Town of Wellfleet is in the process of updating its Open Space and Recreation (OSR) 5-Year Plan. This survey will help identify the needs and concerns of the community regarding open space and recreation resources so that the Plan can address them. Having an approved Open Space and Recreation Plan is a requirement for the Town to qualify for State reimbursement programs, which offset acquisition costs. Important community assets can be protected in perpetuity.

In this survey, "Open Space" is defined as publicly accessible undeveloped lands that deserve to be preserved for a variety of reasons, including: contributing to Harbor, fresh water, and ground water quality; providing passive and active recreation opportunities; mitigating impacts of climate change; protecting public lands; and protecting the Harbor, bay, beaches, and ponds; or simply because their location and scenic qualities contribute to the overall character of the Town.

Please take a few minutes to answer all of the applicable questions. **Your opinions are very important to the future of Wellfleet. Be assured that ALL responses are anonymous. Thank you for your help.**
